## **DETAILED ACTION**

## Election/Restrictions

This application contains claims directed to the following patentably distinct species. Applicant must elect a single subspecies under one of the categories below.

Type of Indicators:

- a. Drip Holes
  - i. Figure 4
  - ii. Figure 5
  - iii. Figure 6
- b. Pressure gauge
  - iv. Figure 7 (ball float)
  - v. Figure 8 (face plate)
- c. Fluid sensors
  - vi. Replacing indication port
  - vii. Replacing drip hole

The species are independent or distinct because drip holes, pressure gauges, and fluid sensors are all patentably distinct from one another because they all have different components that require separate searches.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a

Application/Control Number: 10/713,530

Art Unit: 3731

listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Page 3

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarah K. Webb whose telephone number is (571) 272-4706. The examiner can normally be reached on Mon-Fri 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anhtuan T. Nguyen can be reached on (571) 272-4963. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
